- ## Email 1- Request for assignment submission

Dear Professor,

I hope you are doing well. I am writing this email to you to request a short extension for the upcoming assignment submission so that we can have some time for making it.

Due to some unavoidable circumstances over the past few days, I have been unable to complete the assignment to the best of what I could have done before the given deadline. I want u to make sure that my work must show my understanding and effort of completing it.

I would be gratefull if you could lend me some extra time for it. I assure you to submit the assignment asap.

Thank you for your time and consideration in this matter.

Sincerely,

Prakhar Paliwal

- ## Email 2- Application for summer intersnship

Dear Sir/Madam,

I hope you see this message. I am a first-year BTech Computer Science student, and I am writing this email in order to show my interest towards the summer internship opportunity at your organizatiosn.

I have a strong interest in programming and problem-solving, and I am currently developing my skills in Python, data structures, and web development. I am willing to work in order to gain gain practical experience and learn in a professional and also a practical environment like yours.

I would appreciate the opportunity if given to me to make your organisations grow to the best of my capabilitiess. Please let me know if there are any available vacant spaces available where I can fit in

Thank you for your time and consideration.

Sincerely,
Prakhar Paliwal
